# ELENA ROSTOVA

New York, NY | elena.rostova@example.com

## PROFILE

Backend Software Engineer with 4 years of experience building high-throughput data processing systems and microservices.

## PROFESSIONAL EXPERIENCE

Backend Software Engineer | FinTech Systems | Jan 2022 - Present
- Designed scalable financial ledger services using Python, Django, PostgreSQL, and Kafka.
- Built async workers using Celery and Redis to process millions of payment events daily.
- Optimized database indexing and partitioning in PostgreSQL.

Software Developer | NextGen Apps | May 2019 - Dec 2021
- Developed RESTful APIs using Python, Flask, and SQLAlchemy.
- Integrated payment gateways (Stripe, PayPal) and managed OAuth2 authentication.
- Wrote automated unit and integration tests using pytest, maintaining 90%+ code coverage.

## EDUCATION

Bachelor of Science in Software Engineering | NYU | 2015 - 2019

## SKILLS

Languages: Python, Go, SQL
Frameworks: Django, Flask, FastAPI, Celery, SQLAlchemy
Databases: PostgreSQL, MySQL, Redis, Kafka
Tools: Docker, Git, Linux, Pytest, Postman
