SUMMARY

NLP & Machine Learning Engineer with 4 years experience fine-tuning large language models and developing vector search sy

EXPERIENCE

Machine Learning Engineer (NLP) | LanguageTech | Jan 2022 - Present
- Fine-tuned BERT and RoBERTa models using PyTorch and Hugging Face Transformers.
- Built semantic search and RAG retrieval pipelines using Sentence-Transformers and FAISS.
- Served real-time inference microservices using FastAPI and Docker on AWS.

Data Scientist | TextMetrics | Jul 2020 - Dec 2021
- Extracted entities and relationships from legal documents using spaCy and Python.
- Built text classification pipelines with scikit-learn and NLTK.

EDUCATION

Master of Science in Artificial Intelligence | Carnegie Mellon University | 2018 - 2020
Bachelor of Science in Computer Science | UC San Diego | 2014 - 2018

SKILLS

Python, PyTorch, Hugging Face, Transformers, Sentence-Transformers, BERT, LLM, RAG, FAISS, spaCy, NLTK, Scikit-learn,
