DR. MARCUS VANCE

marcus.vance@example.com | Boston, MA

PROFESSIONAL PROFILE

NLP Research Scientist with Ph.D. and 3 years post-doctoral industrial research in generative AI and retrieval-augmented gene

RESEARCH & EXPERIENCE

Research Scientist | DeepMind Innovations | Sep 2022 - Present
- Researched dense passage retrieval and cross-encoder re-ranking using PyTorch, Transformers, and sentence-transformers.
- Published 2 papers at ACL and EMNLP on hallucination reduction in LLMs.
- Implemented low-rank adaptation (LoRA) and fine-tuning pipelines for large models with DeepSpeed and Hugging Face.

Postdoctoral Researcher | MIT CSAIL | Sep 2020 - Aug 2022
- Conducted NLP research on relation extraction and semantic parsing using spaCy, PyTorch, and BERT.

EDUCATION

Ph.D. in Computer Science (NLP focus) | Carnegie Mellon University | 2016 - 2020
Bachelor of Science in Computer Science | Harvard University | 2012 - 2016

CORE COMPETENCIES

NLP & Deep Learning: PyTorch, Hugging Face, Transformers, sentence-transformers, spaCy, NLTK, LangChain
Programming: Python, C++, CUDA
Tools: Git, Linux, Docker, Slurm, WandB
